## U. S. RECORD OF PERFORMANCE BREEDERS

The breeders listed on the following pages are participating in the U.S.R.O.P. (U. S. Record of Performance) breeding stage of the National Poultry Improvement Plan, according to reports submitted by the official State agencies.

| <u>Breed and Variety</u>                | <u>No. Flocks</u> | <u>Page</u> |
|---|-------------------|-------------|
| Single-Comb White Leghorns - - - - -    | 205               | 2           |
| Single-Comb Rhode Island Reds - - - - - | 61                | 10          |
| Barred Plymouth Rocks - - - - -         | 54                | 12          |
| New Hampshires - - - - -                | 43                | 15          |
| White Plymouth Rocks - - - - -          | 40                | 17          |
| White Wyandottes - - - - -              | 8                 | 19          |
| Buff Orpingtons - - - - -               | 4                 | 19          |
| Black Australorps - - - - -             | 2                 | 19          |
| Single-Comb White Minorcas - - - - -    | 2                 | 19          |
| Lamonas - - - - -                       | 2                 | 19          |
| Anconas - - - - -                       | 1                 | 20          |
| Brown Leghorns - - - - -                | 1                 | 20          |
| Buff Plymouth Rocks - - - - -           | 1                 | 20          |
| Jersey White Giants - - - - -           | 1                 | 20          |
| Rose-Comb Rhode Island Whites - - - - - | 1                 | 20          |
| White Australorps - - - - -             | 1                 | 20          |

The status of pullorum control for each flock is indicated. When no class is indicated it does not necessarily mean that the flock is not tested for pullorum disease, since some breeders do private testing and still others have their flocks tested under State supervision but not in accordance with the requirements of the National Poultry Improvement Plan. Additional information regarding these flocks may be obtained by writing to the breeders or to the official State agencies in their respective States.

SINGLE-COMB WHITE LEGHORNS

| Name and address of breeder                              | <u>U.S. pullorum-control class of flock</u> |
|--|---|
| Alabama Poultry Farm, Notasulga, Ala.                    | Tested                                      |
| Alampi Breeding Farm, Williamstown, N. J.                | Tested                                      |
| Alexander, J. A., Stony Point, N. C.                     | Tested                                      |
| Alexander, James H., Stemmers Run, Md.                   | Tested                                      |
| Altenburg, H. L., Middle River, Md.                      | Passed                                      |
| Amstutz, U. S., Wisner, Nebr.                            |   |
